

Specialist Car Insurance Company Launches High Performance Car Insurance Comparison Website

By Car-Insurance.tv

Dated: Nov 10, 2009

Finding cheaper car insurance for expensive high performance cars and high value modified cars has never been easy due to the nature of the risks and the costs of repairs, but a new performance car comparison website looks set to change all that!

Finding cheaper car insurance for expensive performance cars and high value modified cars has never been easy due to the nature of the beast, however all that looks set to change with the introduction of a new performance car comparison system from specialist car insurance company <http://www.car-insurance.tv> , which has brought together over eighty high performance motor insurance schemes into one easy to use online application.

Sales and Marketing Director Wendy Farr explains the benefits of the comparison system.

“ In the past performance car owners would have had to have visited many specialist operators individually which a time consuming process and can soon lead to diminishing returns if it is taking up your life looking for cheaper cover.” She said.

“Our application has brought together specialist schemes and mainstream brand policies that have been particularly designed for high risk rated performance cars in the Thatcham insurance groups 16 – 20. “

“ We have found that the drivers of these cars are looking for extensive but flexible cover with the ability to vary the cover widely from what would be offered by a standard car insurance comparison website. They also want value for money policies that don't penalise them just because they drive a larger more powerful engined vehicle or have top of the range additional enhancements or modifications. “

Many of our performance car insurance customers have told us that they have been let down badly in the past by the large car insurance price comparison websites, particularly when it comes to claims and approved repairers.

Our comparison service is quick and easy to use and fully backed by broker trained staff with an expert knowledge of the cars and policies, who are on hand to help out at any stage.”

“This is something that you will not find on the big price comparison sites.” She added!

You can compare specialist performance car insurance policies, schemes, cover and prices for yourself if you visit the website <http://www.car-insurance.tv/performancecarinsurance.html>

###
